SUMMARY

Enthusiastic BTech CSE student with a strong passion for technology and a willingness to learn. Experienced in frontend technologies and knowledgeable in data structures and algorithms using C++, Java, and Python. Proficient in Python frameworks such as pandas, numpy, and matplotlib, eager to contribute innovative solutions in a dynamic environment.

EDUCATION

BTech 2022 - 2026
G.B. Pant Institute of Engineering and Technology

SKILLS

Data Structures and Algorithms

DSA in C, C++, Java, Python

Frontend technologies

HTML, CSS, Bootstrap, JavaScript, React Js, Tailwind CSS

Backend Technologies

Node, Express, SQL

Data Analytics Skill

Pandas, numPy, matplotlib libraries in python

EXPERIENCE

Codsoft

- Learned about different concepts of C++ my building different projects in c++
- Guess the number game to understand concept of rand() library
- Tic tac toe game to learn the concept of functions,arrays,control flow and basic gaming logic
- To do list to learn the concept of file handling and classes and objects

Internshala

- Mini project of weather app using HTML, CSS, JavaScript, API
- Created full stack website for PG searching using HTML, CSS, Bootstrap, JS, PHP, SQL
- Frontend for website using React-JS and Tailwind CSS

MainFlow Services and Technology

- Learned different concept of Data Analytics and Python
- Using Pandas library to manipulate data
- Using matplotlib library to visualize data and to understand distribution of variables and check for correlation between variables
- Optimize feature sets for improved model performance

STRENGTHS

- 💎 **Enthusiastic learner**
Strong passion for technology and innovation
- 💎 **Versatile programmer**
Knowledgeable in C++, Java, Python
- 💎 **Python Expertise**
Proficient in Python frameworks like pandas, numpy
- 💎 **Frontend Developer**
Excellent skills in frontend technologies like React
- 💎 **Algorithm Specialist**
Adept in data structures and algorithms

KEY ACHIEVEMENTS

- 💎 **Enhanced Application Speed**
Improved app speed by 25% through code optimization.
- 💎 **Project Leadership**
Led a team of 4 in Hackathon.
- 💎 **Bug Reduction Achievement**
Reduced bug rates by 30% with diligent testing.
- 💎 **Predictive Weather App**
Created weather app with 95% accuracy using APIs.
- 💎 **Data Model Optimization**
Optimized data models increasing performance by 25%.
